

NEW ENGLAND AND BEYOND ANNUAL LIFE SCIENCES PANORAMA THE OUTLOOK FOR 2015

WEDNESDAY, MARCH 18, 6:00PM @ THE GENZYME CENTER

LIFE SCIENCES & BUSINESS LEADERS & PROFESSIONALS FROM FRANCE & USA WEIGH IN ON NEW ENGLAND'S MOMENTUM, OPPORTUNITIES & CHALLENGES IN THE YEAR AHEAD

2014 has been a blockbuster year for the Life Sciences industry. We witnessed an IPO record for biotechs in the region in the decade with 17 companies combined to raise about \$1.1 billion; several M&A deals between big pharma and biotech companies and more than 40 new molecules and licenses approved by the FDA.

Issues to be likely face in the near future include the debate about price tag for medicines to treat rare and chronicle diseases, big data management among others.

Join us to meet local companies, researchers, sciences & business leaders from both sides of the Atlantic as they analyze fast-changing development in Life Sciences both in New England and Europe. This program will address topics of interest for small and large companies, investors such as medical devices, regulation, nanotechnologies and finances.

PROGRAM (UPDATED 02,10.2015)

Welcome Address by **Marc Esteva**, CFO, Genzyme.

6:05 - 6:30: Overview of 2014 Headlines in Life Sciences & 2015 Perspectives.
